FRIDAY-SATURDAY, APRIL 2-3

Fanny Hurst's \$50,000 Liberty Magazine
Prize Story

"MANNEQUIN"

—with—

ALICE JOYCE, WARNER BAXTER, DOLORIS COST-
ELLO and ZASU PITTS in the leading roles.

The story of a child who was stolen from its parents
and brought up through gilchick by a half-witted
nurse. What afterward happens is shown in this
brilliant screen production, produced by James Cruze
for Paramount.

Don't miss this picture—It's one of the season's
greatest offerings.

Comedy "FIDDLIN' AROUND"

MONDAY-TUESDAY, APRIL 5-6

Carl Laemmle presents

"OH --- DOCTOR"

starring

REGINALD DENNY and MARY ASTOR
in the Saturday Evening Post story by
Harry Leon Wilson

His life was in danger until a beautiful girl said he
was a coward—then he started out to show her that
no stunt was to hazardous for him. This is a rousing
comedy drama that will cure all your ills.

—COMEDY—

Wanda Wiley in "DON'T WORRY"

The United Church Good Friday

The annual Passion service
will be held on Friday evening
at 8 p.m. The address of the
evening will be delivered by
the minister. His subject will
be "The Passion Play of Ober-
ammergau" the address will be
illustrated by some 60 beauti-
ful colored lantern slides. The
Passion Play of Oberammergau
is a very interesting story of
how a number of Village peo-
ple some four centuries ago
made a vow to produce the play
if the plague which threatened
their Village was stayed and
now every ten years these Vil-
lage people give the Play that
depicts the Death and Passion
of Our Lord. Everybody will
be welcome at the service Fri-
day evening.

Mildest Winter

According to the report from
the Dominion Meteorological
Service at Toronto, Alberta has
experienced the mildest winter
in 48 years. The records show
that at Edmonton the mean
temperature for the months of
December, January and Febru-
ary was 20 above, compared
with a normal of 12 above. At
Calgary the mean temperature
in these three months was 30
above, compared with a normal
of 16 above, and at other points
in the province the weather
was correspondingly mild. At
Calgary only two days in the
three months showed below
zero temperature, and a similar
record was shown at Edmonton
whereas in the Peace River dis-
trict in the north, and in the
extreme southern part of the
province even milder weather
prevailed.

Scott Experimental Farm Notes

The experiments in rates of
seeding grain on summerfallow
at the Scott Experimental
Station have given varying re-
sults depending to a large ex-
tent on seasonal conditions.

In each case five different
quantities of seed were used.
Wheat was seeded from three
quarters of a bushel to two bush-
els per acre and oats and bar-
ley from one to three bushels
per acre.

The average yield of wheat
for five years resulting from
seeding three quarters of a bush-
el per acre was 21.6 bushels
—from one bushel, 21.0 bushels
—from one and one quarters
bushels 24.5 —from one and one
half bushels, 25.0 bushels—from
one and three quarters bushels,
21.1 bushels and from two
bushels, 25.1 bushels per acre.

The average yield of oats for
eight years resulting from the
one bushel per acre seeding
was 57.3 bushels —from one
and one half bushel seeding,
60.2 bushels—from two bushels
62.9 bushels—from two and one
half bushels, 61.8 bushels—and
from three bushels, 62.8 bushels
per acre.

The average yield of barley
for a seven-year period result-
ing from one bushel per acre
seeding was 33.3 bushels per
acre—from one and one half
bushel seeding, 32.9 bushels—
from two bushel 32.5 —from two
and one half bushels, 21.5
bushels and from three bushels
21.3 bushels per acre.

Miller, Oyen, Alta.

Hail Board Has Good Year

The municipal hail insurance
board of the province announ-
ces a reserve of over \$700,000
with the statement that its
financial condition is better
than for some time. The total
risk carried last year was \$10,
880,000 and the awards of the
season amounted to \$685,000.

Scotland in Song and Story

The lantern lecture given by
Mr. William Irvine in the
United Church on Monday eve-
ning, was thoroughly enjoyed
by an audience which filled the
church to capacity. The lec-
ture was interspersed with
vocal numbers by Miss Maxine
Sutherland and Mr. Robert
Niabel, who also sang a duet
"Ye Banks and Braes".

Refinery to Start Oil Shipment

The Alberta Refineries at
Edmonton will start shipment
of its product the coming week,
the first carload of refined oil
going to Bashaw. The refinery
will also supply oil to the Cana-
dian National Railways.

Want Alberta Man

The Provincial Legislature
this week unanimously passed
a resolution asking the federal
government to appoint a re-
presentative of Alberta interests
on the Vancouver harbor board.

The engagement of the Ladies
Imperial Orchestra, to appear
at Oyen Theatre on Mon-
day, April 5, has been cancell-
ed. "Oh Doctor" a rollicking
story of a reckless young man
and a pretty nurse, is the Mon-
day and Tuesday attraction.

William Hogan, who has been
taking a short tractor course at
the school of Technology and
Art, Calgary, returned to Oyen
yesterday.

Eric Sharp, spent the week
end in hospital where he had
an operation performed on his
throat.

Mike Devereux, was discharg-
ed from the hospital the latter
part of last week and is now
back at his farm.

A Land of Opportunity and Service

Canada, and Western Canada in particular, has frequently been described as a young man's country—a country in which the humblest boy possessed of ability and energy, plus ambition, has an opportunity of rising to the top in any walk of life he may choose, and of achieving the highest position which it is within the power of his fellow citizens to bestow. Over and over again has the correctness of this opinion been verified in the lives of young men who have risen to positions of influence and power in this country whereas they probably would have led uneventful lives had they remained in their old environments.

It is doubtful, however, if quite so striking an example of the rapid rise of a young man from very humble surroundings to a high and honored position has ever been afforded as in the case of Hon. Charles A. Dunning, until a few days ago Premier of Saskatchewan and now Minister of Railways and Canada in the Dominion Government. The story of Mr. Dunning's life since coming to Western Canada reads like a romantic fairy tale.

Mr. Dunning has not yet reached his forty-first birthday, having been born in Leicester, England, on July 31, 1888. As a youth of 17, and of delicate health, he emigrated to Saskatchewan and began work as a farm hand. Following year he commenced his education at the local school, and like all new settlers without worldly wealth, began to break his quarter section and erect his log and sod buildings. In the year prior to Mr. Dunning's arrival in this now the Province of Saskatchewan, the Territorial Grain Growers' Association was organized, and the newly-arrived English lad soon identified himself with the "Local" in his district, and thus commenced to render public service and climb the ladder of fame.

Within a few years he was a director of the Association, then vice-president for four years. During this period the Saskatchewan Co-operative Elevator Co. was created, and Mr. Dunning was appointed its first General Manager, which position he held for six years, developing the infant company until it reached the position of being the world's greatest initial grain handling concern. Then, in 1916, when W. M. Martin succeeded Walter Scott as Premier of Saskatchewan, he called Mr. Dunning to his cabinet as Provincial Treasurer, and, with the possible exception of Quebec, no Province's finances were better handled during the last of the war years and during the difficult years of readjustment and depression than during those years of Saskatchewan.

In 1922, Mr. Martin retired from the Premiership, and Mr. Dunning was the unanimous choice of the Liberals of Saskatchewan as his successor. Then within nine years of arriving in Saskatchewan, and at the early age of 28, Mr. Dunning was General Manager of one of the Dominion's biggest companies at the age of 21 this English emigrant lad was a cabinet minister, at 26 he was Prime Minister of the Province. What other country can offer a parallel to such a record!

During the war Mr. Dunning threw his boundless energy and organizing abilities into the task of furnishing the wheatmeal to enable Canada and the Empire to warthily and successfully play their part. He was chairman of the Victory Loans campaign in Saskatchewan for three years in succession, and Director of Food Production in Canada during the last entire year of 1918. And now, secure in the Premiership, with an overwhelming majority in the Legislature following an election of less than a year ago, Mr. Dunning relinquishes a safe and comparatively easy position to go to Ottawa and take over one of the heaviest and most responsible portfolios in the Dominion Government. And those who know him most intimately are agreed that he does so in order that he may thereby render still greater service to the country of his adoption and the Empire which gave him birth.

It is well for Canada that it can provide such opportunities for advancement to its people, and it is even better for Canada that when the occasion and the need arise, her sons are willing to give their very best in effort and service.

Apart altogether from partisan feelings and affiliations, the people of Western Canada are proud of the achievements of Mr. Dunning and rejoice to have him in the Government at Ottawa at a time when strong men, filled with initiative and capable of safe but progressive leadership are urgently needed. Although a Westerner by his own choice and fully versed in the problems and needs of this section of the Dominion, Mr. Dunning's vision is not restricted to the prairies. He will approach and deal with Canadian problems from no narrow or sectional viewpoint, but in the interests of Canada as a whole.

Knowing the West as he does and its enormous possibilities, he will apply his energies beneficially for the West, not because it is the West, but because through the welfare and prosperity of Canada as a national unit will be advanced. Political friends and political foes alike, therefore, he found willing in a hope that the same unbroken record of successful achievement which has marked his career in the past will be surpassed in the larger arena of national affairs. It is Canada which will be the gainer thereby.

Scenic Parks

Of the seven great scenic parks of Dominion control in the Rockies and in the West, the value of 16,199, and Skidgate, three in Alberta and four in British Columbia. Waterton Lakes, Rocky Mountains (Banff), Jasper National Parks are in Alberta, and Yoho, Glacier, Kootenay, and Revelstoke National Parks are in British Columbia.

Canada's Wood Clip

Canada's wood clip for 1925 amounted to 25,552,916 lbs. valued at \$11,919,000, as compared with 15,117,719 pounds, valued at \$3,771,000, in 1924. According to a provincial estimate, Ontario had the greatest production last year, with an output of 4,825,745 pounds.

Children Cry for

To avoid imitation, always look for the signature of *Dr. J.C. Williams*. Beware of cheap imitations. *Dr. Williams' Pink Pills* are recommended by leading Physicians everywhere.

Gigantic Airship Lines

Service Will Bring Canada Within Thirty Hours of Great Britain

Gigantic airships on long endearing the globe, with fast aeroplanes following, have been outlined in a comprehensive address on "progress in civil aviation" by Air Vice-Marshal Sir Sefton Branson, K.C.B., director of civil aviation in the British air ministry, at the Empire Club, Toronto.

Great Britain is devoting much money to the development of two gigantic airships, each with a capacity of 2,000,000 cubic feet, which is twice the size of any airship flown so far, for a service between India and London, England, and which eventually will include Australia. This in turn will bring Canada within 25 or 30 hours from the old land, Sir Sefton declared.

The new ship will carry one hundred passengers comfortably and every convenience will be provided. The trip to India is planned to take 100 hours, but about a stop.

One ship will have heavy oil in the engine, while the other will derive its power from a mixture of kerosene and hydrogen, which is an experiment.

A SPRING TONIC

AN AID TO HEALTH

You Can Lay the Foundation of Good Health Now by Building Up Your Blood and Strengthening Your Nerves Through the Use of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the spring time, to refresh the customs of your grandparents, is based upon sound common sense and good medical facts. It is always a trying time for those who are in the spring time. Many men, women and children go through the winter on a nervous strain, and in the spring months, and grow increasingly pale and listless as the summer approaches. A tonic for the blood and nerves is just what is needed at this time, and to give your system, by putting color in the cheeks and building that tired feeling that worries thousands of people at this season of the year.

It is impossible to energetic if your blood is thin and weak, or if you are out of spirits, or if your system is poor. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor, or if you are losing weight. You need a tonic at this time to do your efficiency now, as well as to save you from suffering later on. And in all this, Dr. Williams' Pink Pills are safer or better tonic than Dr. Williams' Pink Pills. These pills, which ease the blood which circulates through the system, and by strengthening the nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, dependent men, women and children.

Ms. K. Strole, Kamouraska, Que., says: "I would not feel that I am neglecting an opportunity to help some other poor sufferer if I failed to tell you how much benefit I have derived from the use of Dr. Williams' Pink Pills. I have taken the pills a year, and by run-down condition. I was very weak, pale and breathless at the time. I often had headache and my appetite was poor. I began to feel better, and my health improved. I am better health than I have enjoyed for a long time. In fact, my health is now the best, and I am sure that what my medicine has done for me will do for all weak, nervous and run-down people."

You can get these pills from any medicine dealer or by mail from a box from Dr. Williams' Medicine Co., Brockville, Ont.

Through Service For

Steamship Passengers

Canadian Pacific Railway inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10:00 a.m. every Tuesday until April 20th, proceeding through service to the ship's side at Saint John.

This service, will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

Not Concerned Over Casualties

U. S. Gains Accepts High Death Rate From Auto Accidents

In the United States the death rate from automobile accidents is forty-eight every twenty-four hours, with 100 injured in that period. The most peculiar fact associated with these figures, according to statisticians who are studying them, is that the people show little or no concern over the large casualty rate, although if they were taking that many every day there would be great excitement about it.

No man who ever be bored as long as you talk to him about himself.

Pan-American Congress

Plea For Canada's Entry Into Congress Made At Toronto

Canada's entry into the Pan-American Congress was urged by Dr. Clarence J. Owen, president of the Pan-American Congress, in a speech at the Canadian Club at Toronto. He also expressed the hope that Canada would recognize the United States constitutionally, and send a representative to Washington.

In pleading for Canada's entry in the Pan-American congress, Dr. Owen pointed out that the Pan-American building the Canadian side of the canal occupied a position of honor with that of the United States. He declared that the Canadian side of the canal occupied a position of honor with that of the United States.

An official invitation has been sent to Ottawa by the Pan-American congress. Dr. Owen said, and he was confident that before long the congress would be truly Pan-American, which it could not really be so long as Canada was not a member.

Has Compiled "Sound Portrait"

Among Records Taken By Berlin Professor Is Museum's Call to Prayer

Many of the records of the present war will be heard 10,000 years from now. If the claims of Professor William Dugan, state librarian of Berlin, are confirmed in that time, Prof. Dugan has compiled a "Sound Portrait" of 2,500 sounds of the present age on master phonograph records made of brass and will file them away for posterity. He took record of any sound of war during the world war, street sounds in the big cities, London and Europe, and, of course, all the popular speaking and singing sounds. Among other novelties is the Mohammedan muzantin's call to prayer.

Russian Palaces For Sale

Soviets Would Sell Or Lease Property Of Late Czar

Possessors who have dreamed of possessing palaces are given an opportunity by the Soviet Government of realizing their dreams. There are several disused palaces in Leningrad, formerly the property of the emperor and members of his family, which the government will be glad to sell or lease to foreigners for periods ranging from 25 to 50 years. The only condition is that a buyer or lessee shall put the building in proper repair and shall pay the usual taxes to the government.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graver's Worm Expeller will protect the children from these distressing afflictions.

The women who don't understand the art of making over last year's hair never marry a man to reform him.

Girls! Your Health!

Testing Them Out

"Tell the janitor to put up notices that no book agents are to be admitted to the building," said the publisher. "But you have just advertised for agents to sell our new work," protested the secretary.

"Of course. I want to try the application of it. If it makes a man good by a little thing like that, what good would he be to us?"—Washington Star.

"There are times when I wish I were a man," said a wife. "When?" inquired her husband. "When I pass a milliner's shop and think how happy it could make my wife by giving her a new spring hat."

The man never lived who didn't at some time in his life expect to find something that would make him rich.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

The stiles of sharks, porpoises and other kinds of fish have been prepared into excellent commercial leather.

George Westinghouse was born in New York, where he worked in his father's machine shop.

Minard's Liniment for sore throat

Will Be Boon To Motorists

Steam Cooling Said to Keep Engine At Even Temperature

Freezing in winter and overheating in summer will no longer threaten motorists, if advocates of steam cooling have their way. Steam cooling, they say, is the cure-all for these ills.

Steam cooling is a method by which the water in the cooling system keeps the engine at an efficient temperature all summer and winter, yet evaporates at the boiling point; it is cooled through the radiator and returns into the system.

One advantage claimed for this system is that there's no worry about radiator leakage, since the radiator connection is at the bottom and the condensed vapor flows down, past any small holes that might appear through rust. In fact, there's mighty little chance for rust, because rust is said to come from cold water, not water that's kept at a high temperature.

One of Tanaka's greatest blessings is the new life and vigor it brings to old folks. Every day men and women up to the seventies and eighties thank us for Tanaka's wonderful benefits.

Tanaka is a natural tonic, made from roots, bark and rare herbs. Harmless to man or child, it cleans the blood, stirs up the liver and puts digestive organs in working order.

If your body to weak and run-down, if you lack nutrition, can't eat or sleep, you'll be delighted with Tanaka's results. Take Tanaka today for constipation.

Keeping Check On Air Traffic

Officer Knows Actual Position of Every Machine Flying in British Area

At Crofton are the beginnings of a system that will, without doubt, spread in every direction as commercial traffic increases in volume. A control tower contains a traffic officer checking the air traffic on any route within the British area. His position reports enable him to know from minute to minute the actual position of any machine in the air. He is a wireless operator. The traffic officer is therefore able to supply information to any pilot who may need navigation assistance.

Young vigor to old folks

"My nerves were worn out and I used to tremble all over. Tanaka gave me sleep, rest and health. I am now 70, but my nerves are as good as when I was 20 years ago."—Harry Johnson, 53 Elm St., Windsor, Ont.

One of Tanaka's greatest blessings is the new life and vigor it brings to old folks. Every day men and women up to the seventies and eighties thank us for Tanaka's wonderful benefits.

Tanaka is a natural tonic, made from roots, bark and rare herbs. Harmless to man or child, it cleans the blood, stirs up the liver and puts digestive organs in working order.

If your body to weak and run-down, if you lack nutrition, can't eat or sleep, you'll be delighted with Tanaka's results. Take Tanaka today for constipation.

Keeping Check On Air Traffic

Officer Knows Actual Position of Every Machine Flying in British Area

At Crofton are the beginnings of a system that will, without doubt, spread in every direction as commercial traffic increases in volume. A control tower contains a traffic officer checking the air traffic on any route within the British area. His position reports enable him to know from minute to minute the actual position of any machine in the air. He is a wireless operator. The traffic officer is therefore able to supply information to any pilot who may need navigation assistance.

Need Change

Humanitarianism mixed with kindness, good food and entertainment has removed the shackles of restraint from the six famous bunnies of Texas. Straight jackets, padded cells and restraint beds are now articles of a forgotten age in the institutions. Beautiful grounds, moving picture shows, dancing and exercise are now at the convenience of the 5,000 inmates.

For Sore Throat

WORLD HAPPENINGS BRIEFLY TOLD

Unclaimed balances in Canadian chartered banks on December 31, 1925, totalled \$2,346,085.51.

David Ross, known as the father of the Irish linen trade, is dead at Belfast, aged 81, after 74 years in business.

A canon pointing in the direction of Austria has a prominent place in Premier Mussolini's sketch for a monument to be erected at Bolzano, in South Tyrol.

Indications are that the number of cars in operation in Manitoba this year will exceed that of last year by at least 6,000, bringing the total to well over 50,000.

The Extension coal mine at Lady-smith, Vancouver Island, has expended 123 miners, due to lack of demand for coal. This, it is stated, has been aggravated by excessive importations of coal from the United States.

One hundred tons of opium, valued at \$7,000, were seized by customs officers on board the Empress of Australia, which arrived at Vancouver, B.C., from the Far East on March 16th. No arrests were made.

The semi-official Student Agency announces that the Italian Government paid \$2,000,000 to the Bank of England, the first payment on Italy's war debt to Great Britain, which was repaid recently in London.

One man who became wealthy through being exhibited by P. T. Barnum as "the smallest man in the world" is dead at the age of 83. He was 25 inches tall and wore a queue 13 feet long.

A serious appeal to citizens of Montreal to take all means in their power to prevent what might be an epidemic of grippe or "flu" was issued by Dr. Eugene Gagnon, acting director of health.

Before the board of railway commissioners, Col. J. E. Baleson, as counsel for the Maritime Provinces, supported the claims of the Quebec harbor commissioners that the National Transcontinental should be utilized for the eastbound grain trade, for the benefit of Canadian ports as set out in its statute.

There is nothing repulsive in Millie's Warm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting, through their action in an unbound stomach, but this is only a manifestation of their cleansing power, no indication that they are harmful. They can be thoroughly depended upon to clear worms from the system.

Walking isn't a lost art. One must, by some means, get out to the garage.

A Corrector of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory passages, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

When there weren't any nerve specialists, people just had the fingers and took another dose of calomel.

Latest Idea In Surgery

Alberta Professor Discovers Medicine That Hastens Recovery Of Broken Bones

Medicine to speed up recovery from broken bones is the latest idea in surgery.

Bones consist largely of calcium phosphate, and after a fracture, fresh quantities of this substance must be taken from the blood for the formation of new bone. The healing process is slow owing to the small quantity of calcium and phosphorus in the blood.

Professor Collip, of the University of Alberta, Edmonton, obtained from the parathyroid glands an extract which, when injected or given by the mouth, increases the amount of both calcium and phosphorus in the blood. The parathyroids are four small glands in the neck near the thyroid gland, or embedded in it.

A New Dairy Pail at a Popular Price

See the new SMP Dairy Pail this new year you are in town. They are made of special quality, high finished tin, have large dairy pail ears, riveted with large rivets, soldered smooth, 100% sanitary. Cut out this advertisement. Show it to your regular dealer. He has our authority to give you a special low price on a pair of these fine pails.

SUNDAY SCHOOL LESSON

APRIL 4

JESUS APPEARS TO HIS DISCIPLES (EASTER LESSON)

Golden Text: Because thou hast seen me, thou hast believed; blessed are they that have not seen, and yet have believed. John 20:29.

Lesson: John 20:1-31:25.
Devotional Reading: Revelation 1:9.

Explanations and Comments

The risen Savior appears to the Disciples in the Upper Room, 20:25-26.—On the evening of the Sunday following the crucifixion, Christ appeared to the disciples in the room where they were assembled. That his body was no longer subject to ordinary laws, is indicated by his sudden appearance in their midst, although the doors were closed. Peace be unto you," was his greeting, and then he convinced them of his identity, he showed them his pierced hands and side. The disciples believed and rejoiced. Again he said, "Peace be unto you," and added, "As my Father hath sent me, even so send I you." An amiable and friend of years, Dr. Henry Ostrander, has described an African priest visiting the African settlement at the St. Louis Exposition. He was clad in citizen's clothes, and the people from Africa gazed in their native costumes. When the priest proclaimed himself a priest, they ridiculed him. However, an aged man said, "I can tell whether you are a picture of the royal blood, and he ran his fingers down the back of the neck of the one who claimed to be a prince and found the mark that was there, the mark of his royalty. Then the aged man fell upon his knees with all the others to worship him. And Christ stands before us as the Lamb that had been slain; scars in his hands and feet, in his side and back and on his brow. He is our Redeemer" (Dr. W. J. Miller Chapman).

Of the 647 professions listed in the United States, men are engaged in 612.

VETERINARY DOCTORS

use and recommend MINARD'S Liniment. Splendid for sprains, bruises, cuts, chafes, swellings.

MINARD'S
"KING OF PAIN"
LINIMENT

"There are no olds in last year's coats," says a poet. True—and there are no needs for next year's birds.

OH, YOU CHARLESTON

ON THE AIR

What Is Doing in the World of Radio

KFI station at Los Angeles has an arrangement which cuts off an entertainer or speaker without the person knowing that he is talking to a "dead air."

A Missouri lady radio fan sends this to a Kansas City broadcasting station: "Since your station started broadcasting our cat sleeps in the barn."

The biggest radio station in the world is that of Rugby, England, which covers nine hundred acres and has twelve steel masts, each more than eight hundred feet high. The total length of wires used in its aerial is more than three miles. It uses a super-power of 100 kilowatts and a wave length of about 6,000 meters.

The first wireless station on the Alps has been fitted up. It is located on St. Margarete's Hut, which is 6,550 feet above sea level on the route to the summit of Mount Rose. Generally, when a climber is in danger and help is needed, the guide has to spend many hours getting down in the foot to secure assistance. With this wireless station at the top, all that is necessary is to send a message, and in the next few minutes help will already be on the way.

Practically all large broadcast stations in New York are booked solid for advertising. It is difficult for anyone to get advertising through these stations even at advance dates. W2AF leads all other stations for advertising announcements and revenue. The charge made by this station is said to range from \$400, to \$500 per hour. W2AF is another New York station which "carries" a great amount of advertising at a rate said to be \$300 an hour. Other broadcasting stations throughout the country charge stiff rates for the use of their studio, but the average cost is estimated at \$75 an hour.

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply NERVINE It Acts Quickly

Mr. W. T. Greenway, formerly connected with the Guide Newspaper staff, has written: "For twenty years we have used Nerville in our home, and yet for the world would we be without it. As a remedy for all pain, neuralgia, rheumatism, and all other pains, it is a sure and quick relief to Nerville. I know of no preparation so useful and quick to relieve as Nerville. Remember this, wherever there is pain, rub on Nerville, and you will get prompt relief—55¢ at all dealers."

Tip On Tacking

Tacks are elusive and bannermen in the insect hand "brute the fingers easily. Try this: Stick the tack through stiff paper or light cardboard, then hold the paper in the desired position. They can may hang away from Mr. Tack until he is satisfied.

To Athletes Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a plinking wheezer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned. It is its best best argument—its own best advertisement. If you suffer from asthma get this time-tested remedy and find help like thousands of others.

Victims Of Wild Animals

Over 3,000 People Killed in British India Last Year.

In British India alone last year it is reported 3,000 persons were killed by wild animals and 20,000 died from snake bites. Tigers accounted for 1,600 deaths; wolves for 335; leopards for 464; and crocodiles took the lives of 212. The wild pigs killed more than 100, bears and elephants about 70. During the year about 22,000 wild animals were killed, so that the ratio of human to wild animals died in the jungle is about one to six.

FREE GOVERNMENT INFORMATION

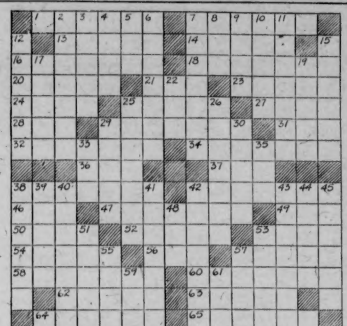

The Newer Silage Crops

A WEALTH of valuable information regarding the newer silage crops is contained in the Bulletin No. 103, "Silage—Sunflower, Corn, Sweet Clover and Other Silages," recently issued by the Department of Agriculture, Ottawa. The Bulletin is a disinterested contribution to our knowledge of silage other than corn, which may be grown in districts where corn cannot be profitably raised.

Recent publications include "Silage," "Fodder Feeds and Feeding," "Cultivation of the Apple in Canada," and "List of Five Hundred Publications." Check off those desired on this form and return, without postage to:
